25X1

1. The railroad bridge across the Danube at Komárom (P48/Y75) is being rebuilt. The bridge, when completed, will rest on two piers and will be suitable for carrying only a single track.
2. The center span was placed in position on 20 June 1953. At the end of August 1953 the work on the bridge itself was still in progress and work on the approaches had not yet begun.
3. Two large cranes, the "József Attila" and a floating crane recently completed by the Gheorghiu-Dej Shipyard, are working at the site.
